

# Keysight Technologies Infiniium 9000 Series vs. LeCroy WaveRunner 6Zi Competitive Comparison

## Keysight 9000 Series

## LeCroy 6Zi Series

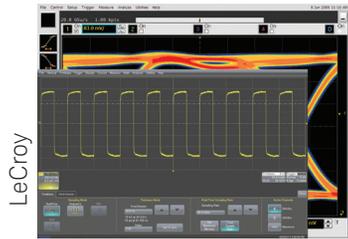

|   | LeCroy WaveRunner 6Zi Series                         |   | Keysight Infiniium 9000 Series                      |   |
|---|--|---|---|---|
| Bandwidth                                       | 400 MHz, 600 MHz, 1 GHz, 2 GHz, 2.5 GHz, 4 GHz       | ■ | 600 MHz, 1 GHz, 2.5 GHz, 4 GHz                      | ■ |
| Upgradable bandwidth                            | No   | □ | Yes   | ■ |
| Max sample rate (2-ch)                          | Up to 20 GSa/s<br>(40 GSa/s on 2.5 and 4 GHz models) | ■ | Up to 20 GSa/s                                      | ■ |
| Standard/max memory (2-ch)                      | 32 Mpts/256 Mpts                                     | ■ | 40 Mpts/1 Gpts                                      | ■ |
| Update rate<br>(table on reverse side)          | 110 wfm/s with 100 Kpts                              | □ | 380 wfm/s with 100 Kpts                             | ■ |
|   | 12 wfm/s with 1 Mpts                                 | □ | 350 wfm/s with 1 Mpts                               | ■ |
|   | 1 wfm/s with 10 Mpts                                 | □ | 190 wfm/s with 10 Mpts                              | ■ |
| Biggest display                                 | 12" WXGA   |   | 15" (65% more display area)                         | ■ |
| Default setup and autoscale front panel buttons | No   | □ | Yes. All four vertical channel and horizontal knobs | ■ |
| Knob per channel                                | No (multiplexed knob controls)                       | □ | Yes. All four vertical channel and horizontal knobs | ■ |
| Drag and drop measurements                      | No   | □ | Yes   | ■ |
| Independently set sample rate and memory depth  | No   | □ | Yes   | ■ |
| InfiniScan Zone triggering                      | Not available  |   | Option. Up to 8 zones                               | ■ |
| 12-bit models                                   | Yes (400 MHz and 600 MHz HRO models)                 | ■ | No. High-res mode up to 12-bit resolution           | □ |
| Standard probes                                 | 500 MHz passive                                      | ■ | 500 MHz passive                                     | ■ |

| MSO Comparison                                | LeCroy WaveRunner 6Zi Series     |   | Keysight Infiniium 9000 Series |   |
|---|----------------------------------|---|--------------------------------|---|
| Form factor                                   | External pod                     | □ | Integrated                     | ■ |
| MSO sample rate                               | Up to 2 GSa/s                    | ■ | Up to 2 GSa/s                  | ■ |
| MSO memory depth (std/max)                    | 50 Mpts/50 Mpts                  | □ | 128 Mpts/128 Mpts              | ■ |
| Analog + digital pattern triggering           | Yes, but with 39 ns trigger skew | □ | Yes                            | ■ |
| Segmented memory support, autoscale, FPGA app | No for digital                   | □ | Yes                            | ■ |

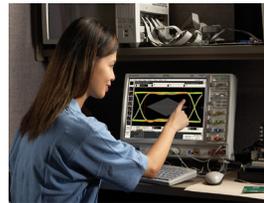

## Benefit of Large Display Size

### 15" VS 12" display

1. Easier to see signal detail
2. Easier to drive (font size)
3. Easier for multiple people to see
4. Bigger touch screen field for easier control

Keysight has 65% more display area

## Benefits of Fast Update Rate

- See infrequent events
- Better view of signal detail
- Responsive controls
- Faster post-processing/analysis

|                             | LeCroy 6Zi                  | Keysight 9000                           |
|-----------------------------|-----------------------------|---|
| <b>Scope (Memory depth)</b> | <b>Waveform/Sec</b>         |   |
| 100 Kpts                    | 40 <input type="checkbox"/> | 550 <input checked="" type="checkbox"/> |
| 1 Mpts                      | 12 <input type="checkbox"/> | 500 <input checked="" type="checkbox"/> |
| 10 Mpts                     | 1 <input type="checkbox"/>  | 300 <input checked="" type="checkbox"/> |

## Protocol Comparison

| Protocol Comparison  | LeCroy WaveRunner 6Zi Series                     | Keysight Infiniium 9000 Series   |
|--|--|--|
| Multiple protocol decode   | Yes. Up to 4 <input checked="" type="checkbox"/> | Yes. Up to 4 <input checked="" type="checkbox"/>                           |
| Color-coded lister rows  | No color in lister <input type="checkbox"/>      | Yes <input checked="" type="checkbox"/>                                    |
| Multi-tab protocol viewer  | No <input type="checkbox"/>                      | Yes (header, payload, packet, details) <input checked="" type="checkbox"/> |
| Decode of off-screen data  | No <input type="checkbox"/>                      | Yes <input checked="" type="checkbox"/>                                    |
| Extensive packet searching                                       | No <input type="checkbox"/>                      | Yes <input checked="" type="checkbox"/>                                    |
| Decode support with segmented memory                             | No <input type="checkbox"/>                      | Yes <input checked="" type="checkbox"/>                                    |
| Pre-saved waveforms for rapid evaluation + 14-day trial licenses | No <input type="checkbox"/>                      | Yes <input checked="" type="checkbox"/>                                    |

## Front Panel

### LeCroy 6Zi Series

- **Default setup** button missing
- **Autoscale** button missing

User must go in menu structure to find both

- **No vernier horizontal** scaling
- Complex **multiplexed channel knobs**

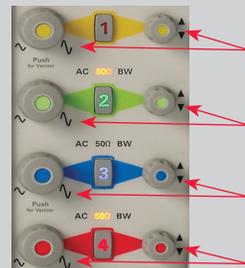

### Keysight 9000 Series

- Autoscale and default setup button
- Vernier horizontal scaling

- Easy-to-use knob-per-channel

Separate vertical scale and offset knobs per channel
