On page 4-12, replace the Battery replacement precautions paragraph with the following information.

Battery replacement precautions

WARNING There is a danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to manufacturer's instructions.

WARNING The precautions below must be followed to avoid personal injury.

- Wear safety glasses or goggles when working with lithium batteries.
- Do not short the battery terminals together.
- Keep lithium batteries away from all liquids.
- Do not attempt to recharge lithium batteries.
- Observe proper polarity when inserting the battery in its holder.
- Do not incinerate or otherwise expose the battery to excessive heat (>60°C).
- Bulk quantities of lithium batteries should be disposed of as a hazardous waste.
