

The logo features the word "TRANSMILLE" in a large, bold, orange, 3D-style font with a blue outline. Below it, the tagline "SOLUTIONS IN CALIBRATION" is written in a smaller, white, sans-serif font. The entire logo is contained within a dark blue rectangular box with an orange border. The background of the slide is a light blue gradient with a dark blue curved shape on the right side.

PROCAL

MULTI DISCIPLINE
CALIBRATION SOFTWARE

CALIBRATION

PROCEDURE
MANAGEMENT

CONFIGURATION &
CUSTOMISATION

STAND-ALONE
CERTIFICATE
PRINTING

ProCal

MULTI DISCIPLINE CALIBRATION SOFTWARE

- Complies with UKAS / ISO quality requirements
- Prints calibration certificates and labels
- Fast procedure writing - procedure wizard feature
- Technical help file system
- GPIB / RS232 instrument control for a wide range of manufacturers
- Calibration priority management
- Text & Picture calibration prompts
- Multi-Language support

ProCal

MULTI DISCIPLINE CALIBRATION SOFTWARE

- ProCal software automates the calibration for many types of instruments, and produces printed calibration certificates
- Combined with ProCal Track it forms a complete integrated software package
- It meets with ISO17025, including traceability, certificate formats, environmental and security
- It covers the full workload of the laboratory supporting many reference standards
- Procedures can be produced and tested quickly
- Intuitive to use - a clear user interface
- User prompts - to aid throughout a calibration

ProCal

MULTI DISCIPLINE CALIBRATION SOFTWARE

- ProCal can be used either manually with results entered using the keyboard and/or connected via the RS232 / GPIB bus to directly control many types of calibrators and measuring instruments.
- ProCal uses Microsoft Access database files which also allows user based integration of other software if required. Full use of pull down menus, data entry forms and graphical displays of data simplify operation, with a 'fill in the boxes' approach to data entry. For larger laboratories a network version of the software is available

ProCal

MULTI DISCIPLINE CALIBRATION SOFTWARE

- Integrated System linking the calibration work directly with the job control and office
- Expandable system to grow from single stations to networked set ups with information available throughout the company
- Software that can be used by non technical staff
- Closed Loop calibration & external calibration control
- Uncertainty calculations and statements
- Software support

MANAGEMENT

ProCal-Track

LABORATORY MANAGEMENT SOFTWARE

- Create standard and custom reports
- ProCal-Track can manage history, repairs and sub-contracted work
- Create standard and custom reports
- Label Printing, multi Language, automated Input using barcode scanner, Using formulas and 'dual units', controlling instruments, company logos are just a few of the features it proudly provides
- Software support

ProCal-Track

LABORATORY MANAGEMENT SOFTWARE

- Virtual on-screen job sheet with full history
- Record repairs, parts used & service details
- Recall letter printing function
- Goods Inwards / Dispatch paperwork
- Instrument identification picture display
- Prints reports, quotes & service logs
- Automatic status tracks instrument, incorporating external sub- contracting

ProCal-Track

LABORATORY MANAGEMENT SOFTWARE

- Provides access to all information, instrument history, user, old job details, instrument status etc. The software can produce many different types of reports, calibration due / overdue letters, print job sheets, book in & dispatch items

ProSales

SALES MANAGEMENT SOFTWARE

- Shares data from ProCal and ProEdit
- Managed contacts data with additional details stored for a wider picture of customer activity
- View / edit calibration pricing database (stock database)
- Manages calibration pricing with links between price codes and calibration procedures
- Allows automatic lookup of pricing via instrument model number
- Instant calibration / quotations including pricing

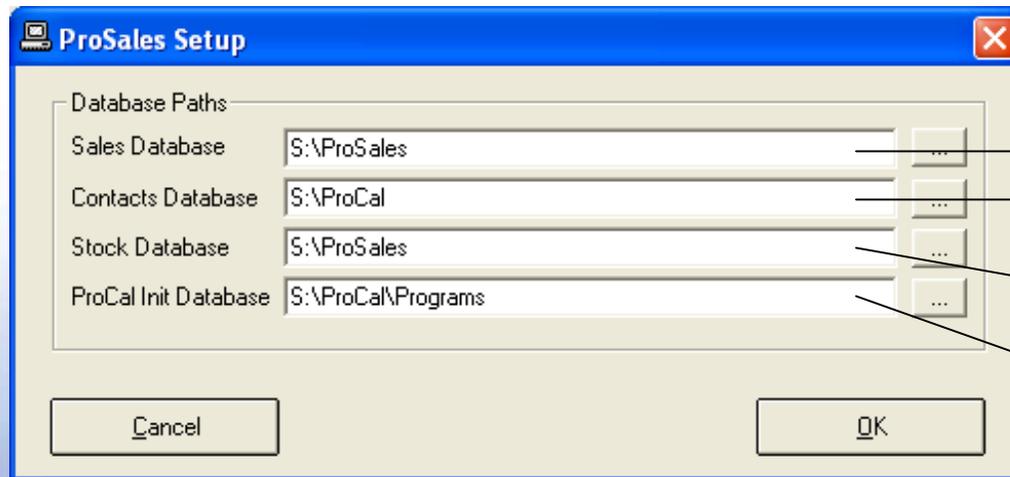

ProSales

SALES MANAGEMENT SOFTWARE

- Links to data from other Transmille software products

- Links to Sales database
- Links to shared contacts database
- Links to shared stock / pricing database
- Links to ProCal settings

- The ability to share data across the software products allows information to be efficiently distributed. This is essential in the design of an efficient laboratory sales management system.

ProSales

SALES MANAGEMENT SOFTWARE

- A central management screen allows access to comprehensive information about a customer

SALES MANAGEMENT SOFTWARE

- Lists of all calibrations performed linked directly from ProCal-Track – one-click to view instrument record directly in ProCal-Track

The screenshot displays the ProSales software interface. At the top, it shows 'Contact Management - PULLMAN INSTRUMENTS (UK) LTD'. Below this, there are tabs for 'Company Information', 'Calibration', 'Quotes / Orders / Invoices', and 'Product Sales'. The 'Calibrations' tab is active, showing a table of calibration records. The table has columns for Manufacturer, Model no, Serial no, Description, Status, and Received. Below the table is a 'View Job Sheet' button. At the bottom of the interface are buttons for 'Tools', 'Info/Reports', 'Lookup Prices', 'New Quote', and 'Close'. To the right of the main window, three smaller windows are shown, each displaying a detailed view of a calibration record from ProCal-Track. Arrows point from the 'Received' column of the main table to these three windows, demonstrating the one-click linking feature.
