

# 511 FreeWeigh

## Handheld Weight Indicator Option

### Convenient

Lightweight and small enough to put in a pocket, the 511 FreeWeigh works together with the 1155 and 1300 in-cab indicators. Net, load, total, and gross weight are selected and displayed by pressing the mode key. Where the operator needs loaded weight information, the mode key gives the flexibility to display the weight.

### Versatile Aid

The 511 FreeWeigh is a robust tool, manufactured in accordance to IP66. Ideal for practically any type of road transport vehicle, where remote weight readings would be an advantage. The 511 FreeWeigh is a radio remote display; it provides drivers with the freedom to weigh the vehicle's payload, zero the display, and print weighing results.

Displays net, load, gross, and total

Lightweight

Convenient pocket size

Easy-to-read LCD display

Print and zero function

Rechargeable, cigar lighter cable included

# 511 FreeWeigh

## Suits Any Type of Road Transport Vehicle

Operating on a frequency of 868 MHz, the 511 FreeWeigh has nine selectable frequencies to prevent multi-user cross talk and interference between units. Battery saving procedures within the unit extend battery life.

- PAN-EUROPEAN 868 MHz
- Range up to 50 metres in open terrain
- 15 selectable channels (9 frequencies)
- Uses rechargeable Li-ion batteries
- Intelligent battery charger
- Small and lightweight
- Variable backlight for dimly lit conditions

Transceivers fitted to the 511 FreeWeigh and cab-mounted indicator provide continuous two-way communication between the driver and vehicle.

1300 Touch Screen Indicator

1155 Indicator
