

## SINGLE SUPPLY 12V SYNCHRONOUS PWM CONTROLLER WITH INTERNAL COMPENSATION

Pb Free Product

### FEATURES

- 12V Gate Driver
- Bus voltage operation from 9V to 15V
- Loss-Less Current limit by sensing R<sub>ds(on)</sub> of Synchronous MOSFET
- Fixed compensation gain
- Pb-free and RoHS compliant
- Internal 300kHz or 600kHz operation(2306A)
- Internal Digital Soft Start Function
- Adaptive deadband Control
- Shut Down via pulling OCP pin
- SOIC8 package

### TYPICAL APPLICATION
